Kanishkaa S.

Aspiring UI/UX Designer
Mumbai, India | 9769887281 | kanishkaa184@gmail.com

Professional Summary

Aspiring UI/UX Designer with hands-on experience crafting intuitive mobile application interfaces, wireframes, high-fidelity mockups, and interactive prototypes in Figma. Skilled in user flow mapping and persona development, with working knowledge of competitor analysis and usability testing. Strong eye for responsive design and visual hierarchy, and passionate about creating user-centered digital experiences that are intuitive, accessible, and visually engaging.

Education

Ramnarain Ruia Autonomous College — Mumbai, India
M.Sc. Information Technology — *Expected 2027*

Somaiya Vidyavihar University — Mumbai, India
B.Sc. Information Technology (Hons.) — *2025*

UI/UX Design Projects

Workaway App Redesign | *UI/UX Case Study, Figma*

- Redesigned a mobile experience for discovering travel and work opportunities, emphasizing intuitive navigation and a seamless user journey.
- Designed key interfaces for host discovery, search and filtering, detailed host profiles, messaging, and a structured application flow with status tracking.
- Applied visual hierarchy, consistent typography, a cohesive color palette, and reusable layout patterns to maintain visual consistency across screens.
- Created an interactive Figma prototype linking key screens to demonstrate navigation and the end-to-end application journey.

Fitness App | *UI/UX Design, Figma*

- Designed a mobile fitness experience focused on helping users explore workouts, follow exercise routines, and monitor their fitness progress.
- Developed a mood board and user persona to guide the visual direction and identify target users' goals, motivations, and pain points.
- Designed user interfaces for onboarding, workout discovery, exercise guidance, and progress tracking to support a structured fitness journey.
- Applied consistent typography, color schemes, layouts, and navigation patterns to create a cohesive and user-friendly interface.

Skills

UI/UX Design: Figma, Wireframing, High-Fidelity Mockups, Interactive Prototyping, User Flows, Mobile App Design, Responsive Design Principles

UX Research: User Personas, Competitor Analysis, User Research Fundamentals, Information Architecture, Usability Principles

Visual Design: Typography, Color Theory, Visual Hierarchy, Layout Design, Accessibility Principles

Technical Skills: HTML, CSS, JavaScript

Certification

Accenture — 2026
User Experience (UX) Design
